# The world wants what we have.

## A Message from Melaleuca Executive Chairman Frank VanderSloot

Over the years, I have talked to many who say they are surprised at Melaleuca's unprecedented rise in the marketplace. They often ask what the secret is to our success. The answer is simply that we have much better products than the grocery store brands. People want to live healthier, longer, and more vibrant lives. They find that Melaleuca products are a great asset in achieving those goals. Melaleuca is quickly becoming the world leader in quality wellness products.

The reason nearly two million families every month are choosing Melaleuca products over the grocery store brands is quite simple. Many manufacturers are yielding to the tremendous pressures in today's marketplace to cut prices and therefore cut quality. Walmart and the other national chains control the distribution channels. Even companies like Procter & Gamble are placed under tremendous pressure to cut prices in order to get shelf space in the stores. They are forced to lower their prices on the one hand and maintain profit margins on the other. The only answer for these manufacturers is to cut costs by using cheaper ingredients or diluting their products with cheap fillers such as water. The trend for many manufacturers to

dilute products has gotten so bad that Walmart announced that regardless of the price pressures they put on manufacturers, Walmart would not carry any laundry products with less than a 2x concentration, which is twice as concentrated as those products were previously. Procter & Gamble responded by finally bringing its products (like Tide®) up to the minimum 2x standard and advertising their "improvement" on national TV. Quite frankly, we were not very impressed. Melaleuca's products have always been more concentrated than Walmart's "standard." In fact, Melaleuca's *MelaPower* was at 3x concentration for more than 20 years, and it's now concentrated at 9x.

The demand for these superior products makes building a Melaleuca business even more profitable and more rewarding. This brings up another good reason for you to buy Melaleuca products. Because when you purchase Melaleuca products, your money is not going to the wealthy owners of Walmart, Unilever, or Johnson & Johnson. Your purchases actually provide income to the family or friend who introduced you to Melaleuca. In other words, instead of benefiting the corporate giants, you are benefiting "the little guy." In most cases, it is someone you know.

Almost all of our 400+ products are significantly superior in effectiveness, quality, and safety to any of our competitors in the marketplace. There are hundreds of very good reasons to choose our products over the grocery store brands. Reducing costs by diluting products with water or other fillers is not the only way that the national brands violate their customers' trust. Compromising quality ingredients to save a buck is also prevalent in many of the grocery store brands. When people are dealing with their health, they don't want to make compromises. And they know that Melaleuca will never compromise on effectiveness or safety. Because of the constant pressures of the mass manufacturers to lower price and quality, the demand for Melaleuca's superior and far more effective products is on the rise.

So thank you for your loyalty to Melaleuca's wellness products. We promise to keep our commitment to always provide the best so you can have a healthier, longer, and more vibrant life.

# We are The Wellness Company!

**Putting nature to work in more than 400 better, safer products for your health and home.**

**M**elaleuca was founded with the purpose of improving wellness. For many this means maintaining a healthy weight or a strong, fit physique. For others it means having energy when they need it, supporting their immune system, enjoying freedom from joint discomfort, or maintaining key health factors like blood sugar or blood pressure. They're all connected.

Every Melaleuca product is designed to support your total

wellness in one of two ways: Either directly, like our superior supplements and personal care products. Or indirectly, like our cleaners that eliminate your dependence on toxic chemicals such as chlorine bleach—making your home and environment a cleaner, safer place to live.

No matter where you are on your journey toward wellness, Melaleuca has the world's best products and programs to help you reach your goals in every aspect of your life.

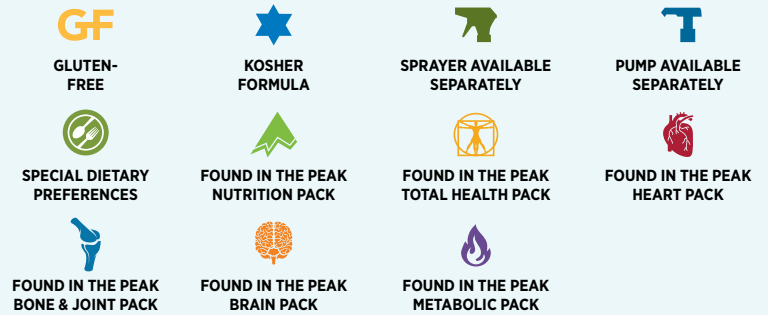

Our brand logo—the Leaf & Drop—stands as a reminder that we look to nature for the best solutions, and by utilizing a host of cutting-edge scientific techniques, we put the power of nature to work.

# Safer, cleaner, better home care.

**Of all the places you spend your day, home should be the safest.**

**N**o matter which stage of life you're in, there is a comfort that comes from a clean environment. Since most people spend 90% of their time indoors, it's that much more important to make sure the products you bring into your home are safe and effective.

There is a peace of mind that comes from knowing that the things that matter most to you are safe and protected. Melaleuca understands. That's why every decision we make, from the ingredients to the packaging, is designed with you in mind.

All of our home care products use naturally safer ingredients instead of the cheap, dangerous chemicals you'll find in national brand products. Concentrated

formulas reduce your impact on the environment and the impact on your pocketbook. And you never have to compromise to get the performance and results you deserve.

A clean home is restful and restorative. It is both calming and uplifting. It is a reflection of who you are and how you feel. Even the very act of cleaning can relieve stress and deliver a strong sense of accomplishment. Cleaning is a unique activity in that it is a form of both self-care and care for others. That's why we put so much care into each and every *EcoSense*® product.

*EcoSense* helps you care for the people and places you love.

Find product overviews, how-to guides, room-by-room cleaning tips, and more! Get your *EcoSense Cleaning Handbook* for FREE at [Melaleuca.com/CleaningHandbook](https://www.melaleuca.com/CleaningHandbook).

# Clean without compromise.

The goal of *EcoSense*® is to help you clean your home without compromising your family's safety, the environment, or your wallet. In fact, all *EcoSense* laundry, home cleaning, and dish cleaning products are designed to be safer, effective, eco-friendly, and affordable. Check out [Melaleuca.com/EcoSense](https://Melaleuca.com/EcoSense) to learn more.

## SAFER

Melaleuca deliberately avoids ingredients that pose a risk to you and your family, like chlorine bleach, formaldehyde, parabens, phthalates, and phosphates. You'll feel the difference when you use *EcoSense* cleaners!

## EFFECTIVE

Every *EcoSense* product harnesses the power of nature and science, using only high-quality ingredients that are proven to clean effectively.

## ECO-FRIENDLY

Our ultra-concentrated *EcoSense* formulas are better for the environment because they reduce packaging waste and eliminate the environmental cost of shipping excess water.

## AFFORDABLE

Because many of our products are highly concentrated, you get more product for less money!

# Super-concentrated to save money and reduce waste.

By concentrating products, we can reduce the size of everything in the supply chain—less storage, fewer storage tanks, smaller warehouses, fewer trucks, fewer trips, less cardboard used in shipping boxes, less fuel to ship the products, dramatically lower greenhouse emissions. And, most of all, less virgin plastic is used in the first place.

We can accomplish all of that by simply letting you add water at home before you use your *EcoSense* cleaners. And while that delivers a world of benefits and savings, it means Melaleuca cleaners are a little different. Here's what you need to know to make the most of your cleaners.

CLEANERS

### STEP ONE

Fill your mixing spray bottle with concentrate to the matching concentrate line on the side of the bottle (2x, 12x, etc.).

### STEP TWO

Tilt the bottle and slowly add water until it reaches the "Fill" line.

### STEP THREE

Spray the diluted cleaner onto the appropriate surface. When the spray bottle is empty, simply repeat these steps.

# Clean laundry without all the plastic waste.

Like *EcoSense* cleaners, many of our laundry products are super-concentrated to save money and reduce waste. But unlike the cleaners, there's no need to add water to the laundry bottles—**your washing machine will add the water for you.** All you need to remember is that less is more. Following these simple steps will ensure that you get brighter, whiter laundry with every load.

## STEP ONE

Pretreat major stains like grass, food spills, oil, juice, makeup, or excessive dirt with *PreSpot Laundry Stain Remover*.

## STEP TWO

Add just 1 pump (that's 2 tiny teaspoons!) of *MelaPower 9x* to your washer's detergent dispenser.

LAUNDRY

### STEP THREE

In the detergent dispenser, add *MelaBoost* to boost the fragrance to meet your preference. In the separate liquid softener dispenser, add *MelaSoft*.

### STEP FOUR

Add a pump of *MelaBrite 9x* to the detergent dispenser to keep colors vibrant. To keep white clothes bright or to deodorize dark clothes, toss a pack of *MelaBrite Plus Oxi* into the washer before loading.

### STEP FIVE

Toss a *MelaSoft Dryer Sheet* into the dryer before you add your clothes.

# Ultra-concentrated laundry detergent.

# Your body deserves the best.

**Treat your skin to personal care products developed with a focus on safe science and natural ingredients that WORK. No harmful additives, no fillers, no fuss!**

**S**ince 1985, Melaleuca has operated on its founding axiom: exceptional products at reasonable prices. Rather than spending our money on costly advertising and shelving costs, we invest significant resources into our formulas. Every ingredient we add is included at levels that provide optimal benefits. We also retain total control of sourcing and distribution channels to ensure quality.

Each product within our personal care category has been developed with these strict guidelines in place. In addition to superior science, our superior sourcing allows our products to consistently outperform the competition!

#### **SAFER FORMULAS THAT WORK**

From our advanced dry skin therapy to hygiene products that defy traditional norms—we strive to keep our formulas as clean as possible without compromising quality or efficacy. By formulating with natural alternatives wherever possible in combination with clean, safe science, we're able to compete with the very best skin care products in the world.

#### **HIGH PERFORMANCE, PERIOD**

We pack, not sprinkle! Here's what we mean by that: many companies will feature an impressive list of powerful ingredients, but what they don't tell you is that those ingredients are added into their formulas at such minuscule levels that it takes a lot longer to see any benefits!

Essentially, you're paying for the name of the ingredient—because if something says it contains pricey extracts, it should work, right? Well, not if those extracts are sprinkled in instead of added at an amount that actually creates the result they were intended for.

At Melaleuca, we NEVER release a formula unless our standards of performance are met. Our in-house scientists are continually working to make sure we evaluate the latest dental, skin, hair, and personal hygiene technologies so that your body is treated to the very best at all times.

# Healthy skin starts with superior support.

In two separate clinical studies, *Renew Lotion* was proven to outperform the leading skin care brand! Melaleuca scientists discovered and perfected the precise ratios of powerful ingredients to create a light, nongreasy formula that provides immediate relief. Unlike other products, *Renew* keeps working for days! When tested against Eucerin® Original, *Renew* showed significantly better results: *Renew* hydrated severely dry skin **10x better** than Eucerin, improved moisture retention **17x better** than Eucerin, and improved skin texture **75% better** than Eucerin.

## Renew® Intensive Skin Therapy Lotion

Skin treatment that's absolutely unmatched! This clinically proven lotion is powerful enough to repair severely damaged, dry skin but gentle enough for everyday use.

# A little love for your hair, skin, and soul!

Are you aware of the effects that scent can have on both the body and mind? How you cleanse, your pH level, your skin's oil production, and the temperature of your skin will affect how something smells on you personally.

*Affinia* elevates personal hygiene with plant-based ingredients and nature-inspired scents that not only leave skin rejuvenated but also smelling INCREDIBLE.

We've looked to nature. We've leveraged the very latest science. We've challenged every ingredient and pushed the limits of every formula and scent.

Triple French-milled  
for a denser, richer,  
more concentrated  
bar of pure luxury.

## In a class of its own.

It's not soap—it's a luxury glycerin bar without equal! You'll notice that *The Gold Bar* has some weight to it. That's because it's highly concentrated and triple French-milled to last 9x longer than traditional bar soap. With its rich, dense, creamy lather and lasting bloom of fragrance, *The Gold Bar* is one of Melaleuca's most treasured products. A lavish blend of natural ingredients, including aloe vera, moisture-attracting glycerin, and *T36-C5 Melaleuca Oil*, gently cleanses, restores hydration, and enhances skin's suppleness. Bathing will never be the same again!

### Luxury Glycerin Bath Bars

Triple French-milled to create a rich, heavy, concentrated bar that lasts up to 9x longer than traditional bar soaps! Made with a perfect blend of natural ingredients that includes aloe vera, glycerin, plant-based cleansers, and *T36-C5 Melaleuca Oil* to prevent drying and premature aging caused by ordinary soaps.

WELLNESS INSPIRED BEAUTY

# Pure and simple.

**Essential oils for everyone! Supporting your well-being with nature has never been easier.**

**H**ow often do the tasks you have to get done make you feel overwhelmed? Stressed? Unfocused? We face many different emotions from one moment to the next as we deal with the demands of daily life. Whatever scenario you find yourself in, *Pure* ready-to-use products are ideal for making essential oils an effortless part of your day. Whether your intention is to lift your mood, relax your body, or refresh your home, the *Pure Essential Oils* you choose can help you start (or end) your day on just the right note.

## YOUR MIND

Scent affects concentration, memory recall, and emotion. Research even shows that there's a **40% improvement in mood after being exposed to pleasant scents!** For example, you can apply *Lighten Up Stress Roll-On* onto your temples throughout a hectic day, spray *I'm a Dreamer* on your pillow before bed, and unwind with a *Soak Away the Day Bath Bomb*.

## YOUR BODY

Enhance your physical well-being. When used topically, essential oils can help reduce feelings of tension or invigorate your skin care routine. *Cool It Vapor Stick* infuses skin with a cooling, invigorating sensation and feels great when you breathe it in. Our *Work It Out Muscle Massage Roll-On* soothes muscles naturally with a cooling and warming gel!

## YOUR HOME

Think about the atmosphere you want your environment to reflect right now. Is it relaxing? Joyful? Energizing? Diffusing your favorite oil or blend is one of the easiest ways to reap the benefits of aromatherapy in your home or office. But we also developed *Hit Refresh Odor Spray* to neutralize bad smells with the sweetest-smelling combination of herbs, pine, and citrus (this spray is great for gym bags and shoes too). **See? Essential oils aren't so hard!** With *Pure* ready-to-use blends, you can ease them into your life as if they've been there all along!

# Make every moment a mood.

Support sleep, reduce stress, boost energy, or simply make your space smell amazing. Create the perfect ambience with adjustable mist strength, four timer settings, and an auto shutoff when the tank is empty.

# Are you ready to achieve your fitness goals?

Whether you want to lose weight or build muscle, Melaleuca is here to help!

**W**hat's your *fitness why*? What drives you to get out and get active, set personal goals, and seek to better yourself one step at a time?

To keep you moving, Melaleuca has developed a proven fitness product line complete with a simple, effective five-step daily regimen.

## FIVE STEPS TO SUCCESS

Your body needs the right nutrition at the right times to get the most benefit from your daily activity. Our 5-step regimen includes products specifically designed to support your daily physical activity, from preparation to recovery to living each day.

**1. Prepare:** Your body needs fuel and energy to engage in heightened levels of activity. Having the right nutrition to prepare your body is critical to achieve maximum results.

**2. Perform:** Wherever you are in your wellness journey, as you increase your activity, your body begins to burn fuel to create the energy it needs to sustain that activity. Staying hydrated and replenishing nutrients are critical for generating that energy.

**3. Recover:** Kick-start your body's vital recovery process immediately after completing increased activity.

**4. Fuel:** It's not just during physical activity that your body needs proper fuel and nutrition. Fuel your recovery and set your body on a path to achieve your goals by taking care of it between sessions as well.

**5. Daily Supplementation:** Beyond fitness products, your body needs a constant supply of high-quality vitamins, minerals, antioxidants, and other nutrients to keep its systems performing at their best today and for years to come.

## Access® Bars

An *Access Bar* should be enjoyed 15 minutes before you start your workout. Using proprietary technology, *Access* blocks adenosine and unlocks your body's ability to turn its own fat into fuel to power your workout. *Access* also delivers natural CLA, which helps your body burn fat more efficiently by increasing the rate of fat metabolism and helping improve muscle tone and keep fat off.

# Sustain.

Regular physical activity is one of the most important things you can do for your health. It not only helps you look and feel good but it supports multiple systems of your body and increases your overall wellness. Our new *Sustain* lineup was developed to give your body maximum support as you prepare for, perform, and recover after activity. Time to get up and get moving!\*

SUSTAIN

## 01

### PREPARE

#### Sustain® Pre-Active

Energize your life! *Sustain Pre-Active* is designed to deliver optimal performance at a higher level than any other pre-workout product! Many pre-workout drinks on the market use synthetic ingredients at ineffective levels. But only *Sustain Pre-Active* is made with powerful levels of naturally derived ingredients like mango leaf extract, arugula, natural caffeine, and a special *ProvexCV* blend—each formulated to work together to improve your focus, energy levels, and blood flow while helping to increase your body's muscular strength and cardiovascular endurance.\*

### PERFORM

#### Sustain® Active Electrolyte Hydration

Hydrate and accelerate! When you sweat during physical activity, you lose electrolytes. Water alone won't replace those electrolytes. Stay properly hydrated with *Sustain Active Electrolyte Hydration*, which delivers a 4-in-1 electrolyte complex and utilizes our twice-patented *Oligo*® mineral-delivery technology. This delicious drink not only rehydrates the body and sustains proper muscle function but also outperforms Gatorade® Classic Thirst Quencher with twice the electrolytes, a fraction of the calories, and powerful antioxidant protection.\*

### RECOVER

#### Sustain® Post-Active

Kick-start your recovery! Proper support as your body recovers after exercise is vital for reducing muscle soreness, replenishing energy storage, and encouraging muscle growth. *Sustain Post-Active* is your perfect recovery companion for an active lifestyle! It's made with all nine essential amino acids, tart cherry, 5 grams of creatine, and minerals powered by *Oligo* technology all working together to reduce muscle soreness, improve strength, endurance, and muscle size, and help speed up recovery after exercise.\*

HEALTHY LIFESTYLE

# Keep your digestive health on track!

Getting enough healthy fiber is crucial—and yet 95% of American adults aren't getting enough fiber each day. No other fiber supplement helps you enjoy the total-body benefits of fiber better than *FiberWise*. Our scientists have formulated it with the ideal balance of soluble and insoluble fiber from seven diverse sources, including psyllium husk fiber, plus strong antioxidant support and soothing herbs. As a result, *FiberWise* provides optimal support for overall digestive health and a healthy immune system. It also supports healthy weight management efforts. And with psyllium husk fiber, *FiberWise* helps support heart health by lowering cholesterol levels.\*†

# Your journey to total wellness begins here.

**You can't hide good health! When you take care of yourself on the inside, the effects radiate outward.**

**H**ow do you achieve the life of wellness you hope for? You have to take purposeful, daily action. There are no shortcuts! Every day, you have to work to improve your relationships, your home environment, your financial well-being, and your personal health and wellness.

To increase your personal wellness, you have to get all the nutrition your body needs each day. That starts with eating healthily. But a typical American diet, even a healthy one, can't always provide the optimal nutrition you would expect.

How do you bridge those gaps in nutrition left by your diet? Many

of us rightly turn to supplements. Many nutritional supplements claim to provide all the vitamins and minerals you need to make up for what your food can't provide. But all too often, the nutrients in these supplements aren't in a form your body can easily absorb and use.

At Melaleuca, we understand deeply the power of good nutritional supplementation in your everyday life. We use only the best ingredients from the best sources. And we use proven, patented technologies to ensure our supplements are more effective for you. Welcome to Melaleuca! Your journey to total wellness begins here.

## Just Like Nature.®

Melaleuca's patented *Oligo*® technology binds minerals to proteins and fibers in a form your body can absorb and use.

Supplementation is a critical part of a healthy lifestyle. We need the right nutrition each day to keep our bodies in peak condition. Other supplements on the market fall far short in delivering essential nutrients in a form that our bodies can absorb and use.

Understanding this need for more absorbable nutrients, Melaleuca scientists developed patented *Oligo* technology. *Oligo* is the only mineral-delivery system that provides minerals to the body in a form that's just like nature!

- *Oligo* is scientifically tested to provide up to 10x greater mineral absorption than other multivitamin-mineral supplements\*
- *Oligo* protects antioxidants up to 5x better than other leading multivitamin-mineral supplements\*

As you read on, you'll see how Melaleuca supplements are uniquely designed to give you the right nutrition for your daily wellness. Further in, you'll learn more about the supplements in our *Peak Performance Nutrition Pack*.

# The vitamin and mineral support you need.

Your body requires daily replenishment of core vitamins and minerals. When you don't get the optimal amounts of these nutrients in your diet, you end up with gaps in your nutrition—and that can lead to long-term health concerns.\*

*Vitality Multivitamin & Mineral* is formulated to help bridge those nutrition gaps. **It's the only multivitamin and mineral supplement in the world powered by patented *Oligo* technology for unmatched mineral absorption!\***

# Trust your gut.

Your digestive system plays a key role in just about every function of your body. It is responsible for absorbing the critical vitamins, minerals, and other nutrients required for life.

Within your digestive system, these nutrients are extracted and synthesized by tiny living organisms known as probiotics, or good bacteria. These probiotics must be taken care of because they help regulate digestion and metabolism while also playing an active role in supporting your immune system.

# Brain power.

Your brain needs daily support to function at its peak. It is the source of your cognition and memory and is closely involved with every system of your body. Ensuring that your brain has the nutrition it needs is a key to enjoying total wellness.

## Unforgettables® Brain Health Support

Think fast! Brain health, concentration, recall, memory, and cognition play huge roles in your total wellness. But as early as your late 20s, your brain can begin to lose some cognitive skills, such as recalling memories, due to natural aging! Oxidative damage from free radicals, decreased blood flow, and a lack of phosphatidylserine—an important lipid in the brain—all cause a decline in neurotransmitter activity. That's why *Unforgettables* replenishes phosphatidylserine and provides bacopa, an antioxidant that's clinically proven to increase connections between neurons, and also includes ginkgo biloba for healthy blood circulation support.\*

## K2-D3 Optimal Calcium Delivery

Strong immunity, healthy bones! Calcium is critical to normal bone development, nerve and muscle function, blood circulation, and much more. But to benefit from the calcium you consume, your body must absorb it and get it to where it is needed so it doesn't build up in the bloodstream. Your body needs vitamin D3 to absorb the calcium and vitamin K2 to direct it to your bones and teeth where it is most needed! Vitamin D3 is also critical to good immune health. Melaleuca's *K2-D3* delivers the right balance of vitamins K2 and D3 to ensure you get optimal calcium performance.\*

### Vitality Calcium Complete®

No matter your age, your body needs calcium to promote strong bones and teeth. Calcium is a mineral that's vital to good bone health. But did you know that calcium also helps to maintain healthy heart rhythm, nerve function, blood clotting, and blood pressure? More than 40% of North Americans do not get the recommended amount of calcium from their diets alone! *Vitality Calcium Complete* is formulated to help you maximize calcium absorption. It delivers our proprietary blend of calcium and magnesium powered by *Oligo*®, plus vitamin D, to promote strong bones and teeth.\*

# Look young and feel young.

Collagen, the most abundant protein in your body, acts like a scaffolding for your tissues and cells to help your body keep its structure and strength. As early as age 30, your natural collagen production can start to slow down.

*Vitality for Life Collagen Boost* is proven to support your body's collagen production! It's packed with 10 grams of type I and type III bovine collagen from two unique sources, both specially designed to yield specific peptide sequences that are recognized by the cells responsible for collagen synthesis. These two unique collagen sources help support collagen synthesis in your body—quickly improving your skin's appearance, firmness, and vibrancy while strengthening and supporting your joints! Our two collagen sources work synergistically with astaxanthin, a powerful antioxidant, to deliver unmatched benefits to your skin and joints.\*

“I love this shopping club.”

In 1985, Melaleuca created an all-new way to shop for better, safer, more affordable products. And while millions have joined us over the last three decades, many of those original Melaleuca customers are still here, shopping month after month and enjoying the benefits only Melaleuca can offer.
